Dear Professor Valle:

On June 30, 2015, the United States Pharmacopeial Convention (USP) successfully concluded its 2010-2015 revision cycle. The remarkable productivity of the Council of Experts came about as a result of highly motivated volunteers who spent extraordinary amounts of time and energy.

I want to take this opportunity at the close of an outstanding five-year cycle to thank you most sincerely for your support of Dr. Caroline R. Weinstein-Oppenheimer's service as the volunteer member of the Spanish Translation Expert Panel in support of USP's mission.

We appreciate that when expert volunteers are serving the USP's standards-setting activities, they give USP important time that would normally go to their organizations and their families. We appreciate that you enabled Caroline to volunteer time with USP. This significantly advanced USP's ongoing mission to ensure the quality, safety, and benefit of food and drugs through publicly available documentary and reference material standards and allied compendial activities.

Sincerely,

Jaap Venema
Executive Vice President & Chief Science Officer
